

Our school has been closed because of coronavirus.

Coronavirus is not spreading as fast as it was so the government and scientists have told us that it is safe to come back to school from Monday June 1<sup>st</sup>.

Some things will be different but lots of things will still be the same.

It is good that we can go back to school and see our friends and our teachers.

# Understanding Social Distancing

-Socially Skilled Kids

## Social Distancing?

It is staying away from large groups of people. This helps reduce the chances of spreading coronavirus, to others.

## Why Do We Need To Have Social Distancing?

Why do we have social distancing? Many ways feel symptoms with the virus.

Because we don't even know when we start feeling symptoms, we don't even know when we are contagious.

Social distancing is the best and easiest thing we can do to help reduce the spread of the coronavirus.

It is everyone's responsibility to keep a safe distance from others, as much as possible.

## I can wash my hands

When I wash my hands, I put some soap on my hands.

We will have some new rules to keep us happy, healthy and safe.

When we come to school, we might come in a different way.

Our parent or carer will drop us at the correct entrance.

We will be staying in smaller groups than usual when we work and when we play. We will try and stay 2 metres apart. This will keep us safe.

Keep your distance

SOCIAL DISTANCING

Keep your distance

We will have to stay in our same group with our same adults all the time.

We will still be with some friends from our class and staff that we know.

We will not be able to touch or hug our friends and we won't be asked to share.

We might be in a different classroom to usual and it will look a little different.

We will each have our own table and chair where only we can sit.

We will have our own pack of everything we will need to help with our learning.

We will keep our coat, lunch box, water bottle and PE kit inside the classroom.

We will have a different breaktime and lunchtime to the other children in school.

We will eat our lunch inside the classroom or outside if the weather is nice.

We will have our own area of the playground and field to use.

We will not be able to use the climbing frame but we will have fun making new games

We will only leave our classroom to go to the toilet or to go outside.

We will still be able to use the toilet as usual.

Only one person will be able to go to the toilet at a time.

We must wash our hands afterwards.

We will need to wash our hands and use hand gel regularly to keep us healthy and safe.

- Arriving
- Playtimes
- Lunchtimes
- Sneezing
- Coughing
- After going to the toilet

We can talk and laugh with our friends and adults but we must not touch them and keep a safe distance between us.

If we feel sad or worried we can talk to our adults at school and at home and they will help us to feel happy and calm.

If we are poorly at school, staff will look after us as usual.

But they may look a bit different if they are wearing a mask or gloves. This is another way to keep safe and stop germs spreading.

We might have to start and finish school at different times to our friends.

This is to make it easier to stay 2 metres apart from people who do not live in our houses.

**Coming back  
to school will  
be different  
but it will be  
fun.**
